**Advice to Students**

**I completely trust you and  
your ability to learn  
your way.**

I have taught for ten years middle and high school; I was also the Head of a private, small middle school for four years.

**Experience in Education**

I am very much a believer in a child's personal style and route to learning. I watch for visual, auditory or kinesthetic tendencies. I believe completely that a child can and will learn when he or she is ready. I have a lot of patience; I only want to work when a child is focused. We find that common ground and move forward, sometimes quickly, sometimes more slowly paced, but always forward.

**Tutoring Style**

I enjoy being with students in a private setting; a lot of learning happens more intuitively and with greater enjoyment.

**Why I like tutoring**

Swimming, reading, hiking, granola-baking, gardening, bird watching, dogs, art, literature, writing

**Hobbies & Interests**

I have climbed Mount Kilimanjaro; you can too.

I have a dog named Scout who wants to play all the time.
